Annual Report

WYOMING

UNITED STATES DEPARTMENT OF AGRICULTURE
PRODUCTION AND MARKETING ADMINISTRATION
P.O. BOX 1211
Casper, Wyoming

F O R E W O R D

This is the Thirteenth Annual Report prepared by the Wyoming State Office.

The report covers the various programs of the Production and Marketing Administration, administered by the Wyoming State PMA Committee. A brief narrative report has been included on each program; however, the main purpose of the report is to present statistical data showing the important accomplishments.

WYOMING STATE P. M. A., COMMITTEE

R. Lester Crompton, Chairman
Evanston - Wyoming

Thomas Strand, Member
Sheridan - Wyoming

W. Palmer Gormley, Member
Burlington -- Wyoming

W. R. Morten, Member
Huntley - Wyoming

A. E. Bowman, Director
Wyoming Extension Service
Ex-Officio Member

PART V - CROP INSURANCE PROGRAM	88 thru. 89

PART 1

1950

AGRICULTURAL
CONSERVATION

PROGRAM

1950 AGRICULTURAL CONSERVATION PROGRAM

The Wyoming State Committee takes this means of summarizing and reviewing the accomplishments of the Agricultural Conservation Program for the 1950 program year.

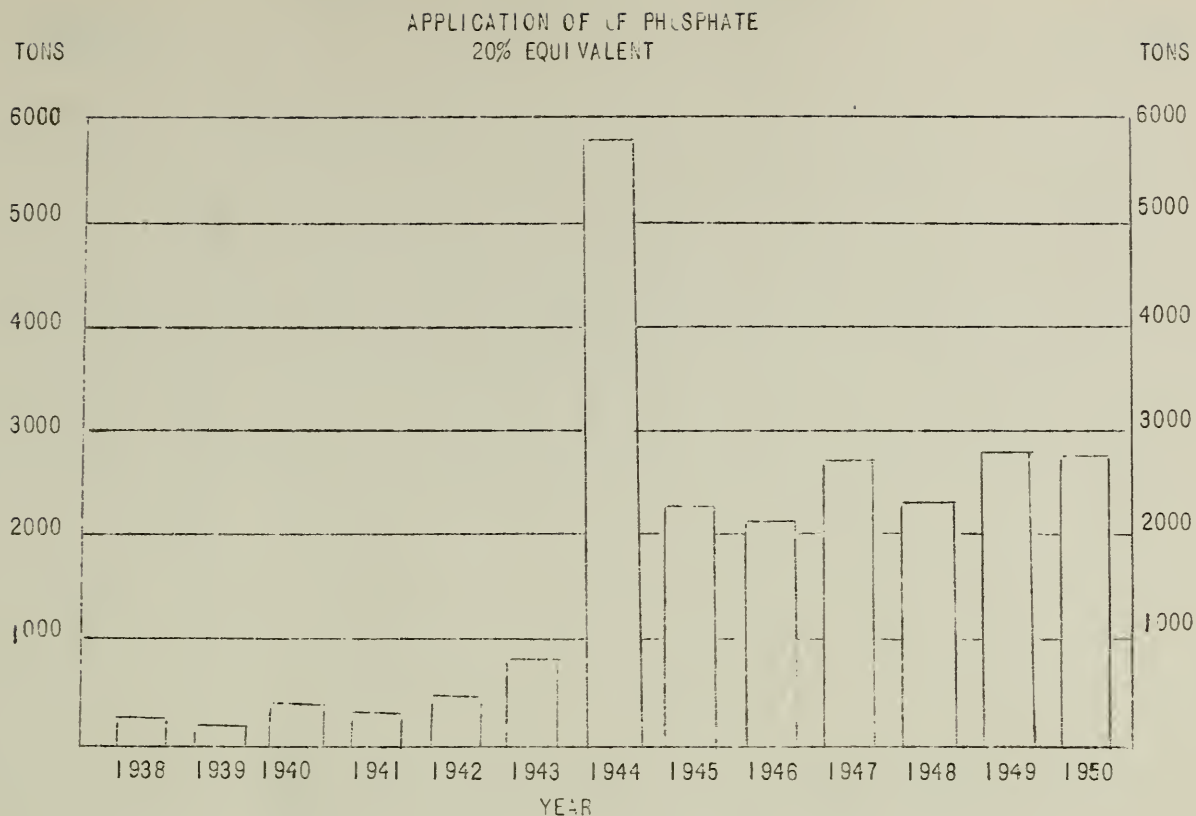

For the 1950 program year Congress appropriated 257,043,439 for the Agricultural Conservation Program. Of this amount, approximately 228,700,000 was distributed to the states and territories to be used in assisting farmers and ranchers to carry out needed conservation practices on their farms and ranches. Wyoming's share, of the money allocated for this purpose, was 2,272,000.

To permit further local adaptation of practices the county committee was permitted to choose, with the approval of the State Committee, one or more practices for the county from the list of practices included in the National Bulletin which was not included in the list of practices approved for the State Handbook. Thirteen counties in the State requested Special Practices.

In addition to the practices which were carried out by individuals on their own farms and ranches, there were one hundred twenty community projects carried out in thirteen counties in the State. There were 538 farms involved in these community projects. A summary of the conservation practices carried out under these agreements follows:

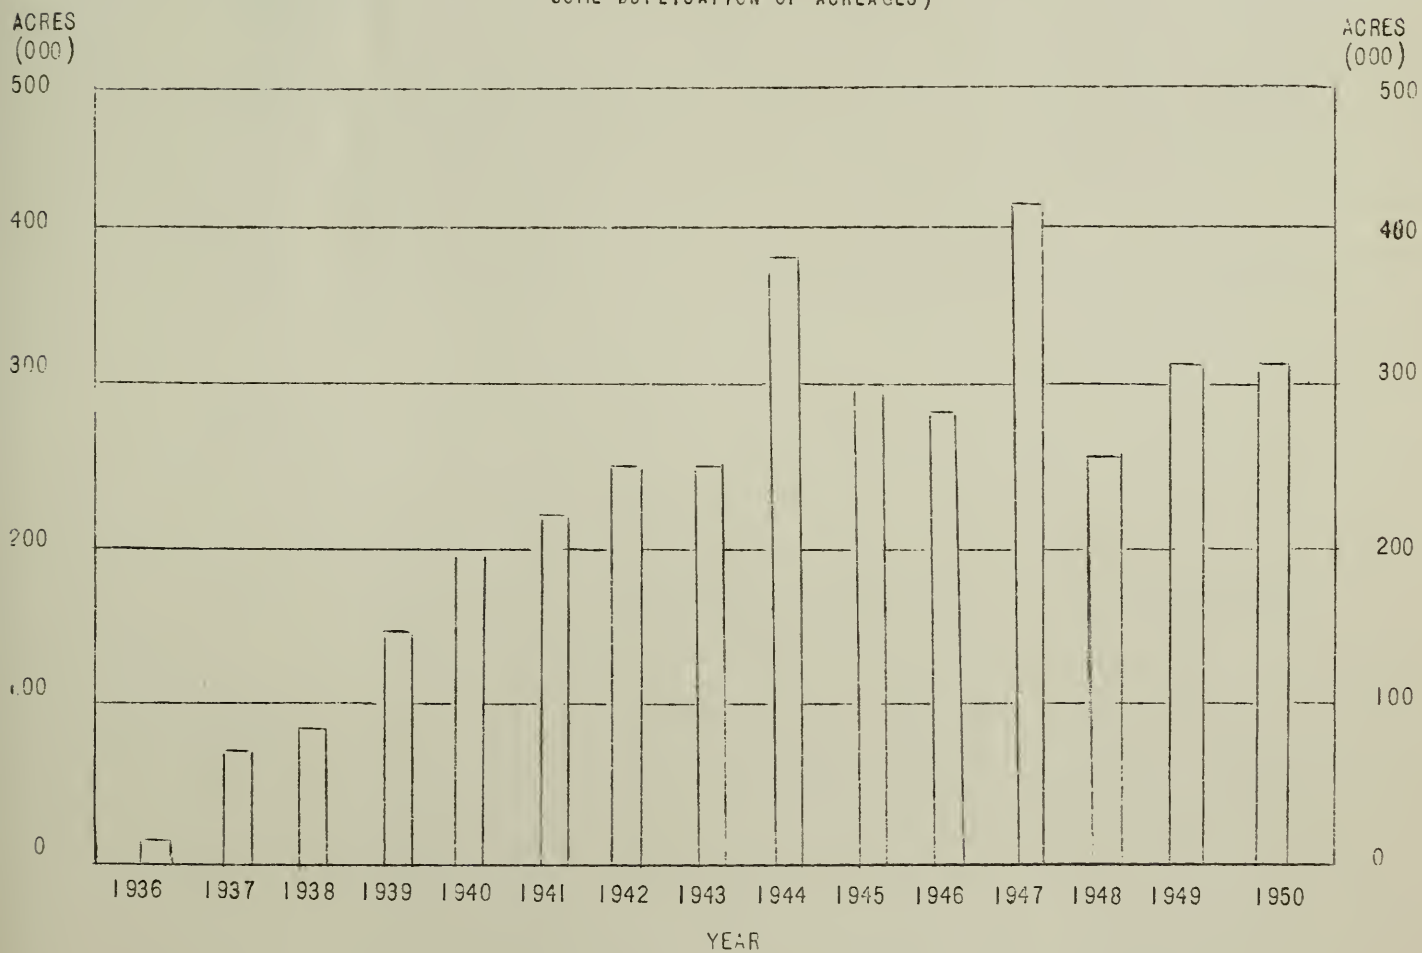

<u>PRACTICE</u>	<u>NO.</u> <u>AGREEMENTS</u>	<u>NO.</u> <u>FARMS</u>	<u>CREDIT</u> <u>VALUE</u>
Tile and Fibre Drains	1	3	2916
Open Drainage Ditches	10	35	11941
Irrigation Ditches	63	290	40947
Lining Ditches	1	12	100
Checks, Drops, Gates, etc.	33	168	4485
Flumes	19	32	1324
Siphons and Pipes	13	61	2520
Dams for Irrigation	2	5	2486
Rip Rap	1	2	33
Stock water Dams	2	6	2562
TOTAL	120	538	69314

The following charts have been provided to give a more complete picture of the accomplishments of the 1950 Agricultural Conservation Program as compared with prior year accomplishments. The tables give complete 1950 practice data by counties and for the State.

STRIP-CROPPING AND PROTECTING OF SUMMER FALLOWED LAND

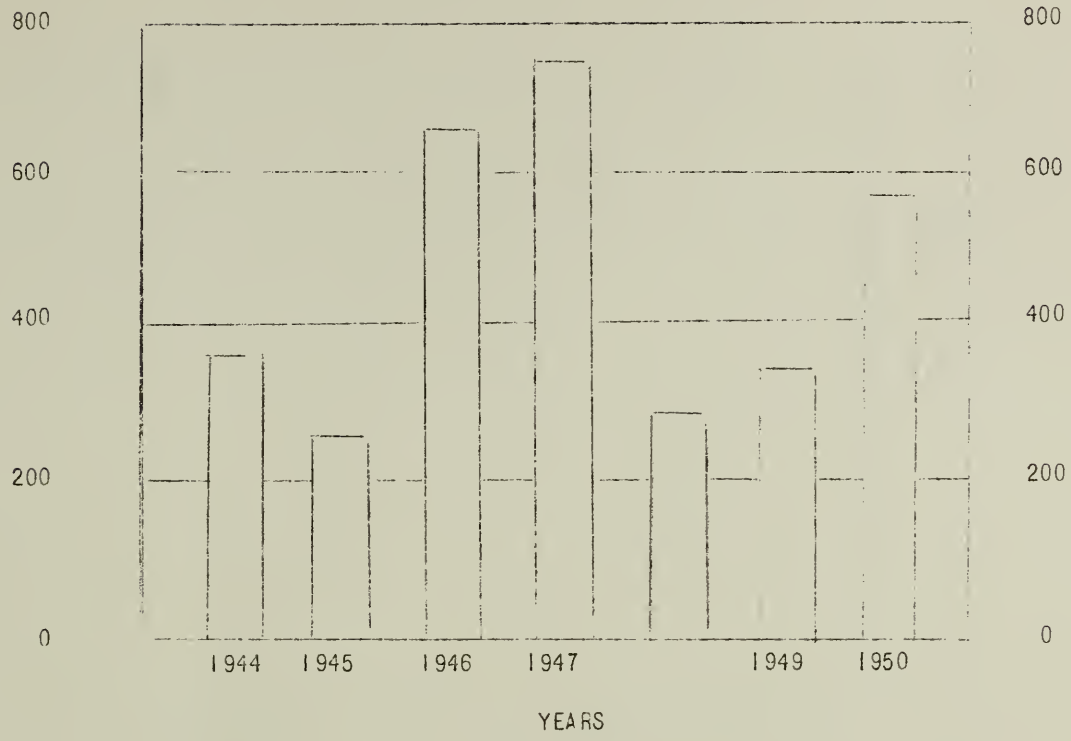

(INCLUDES ALL TYPES OF STRIP-CROPPING AND FALLOW
FOR WHICH PAYMENT WAS MADE AND THUS INVOLVES
SOME DUPLICATION OF ACREAGES)

CONSTRUCTION OF OPEN FARM DRAINAGE DITCHES

CUBIC YARDS
(000)

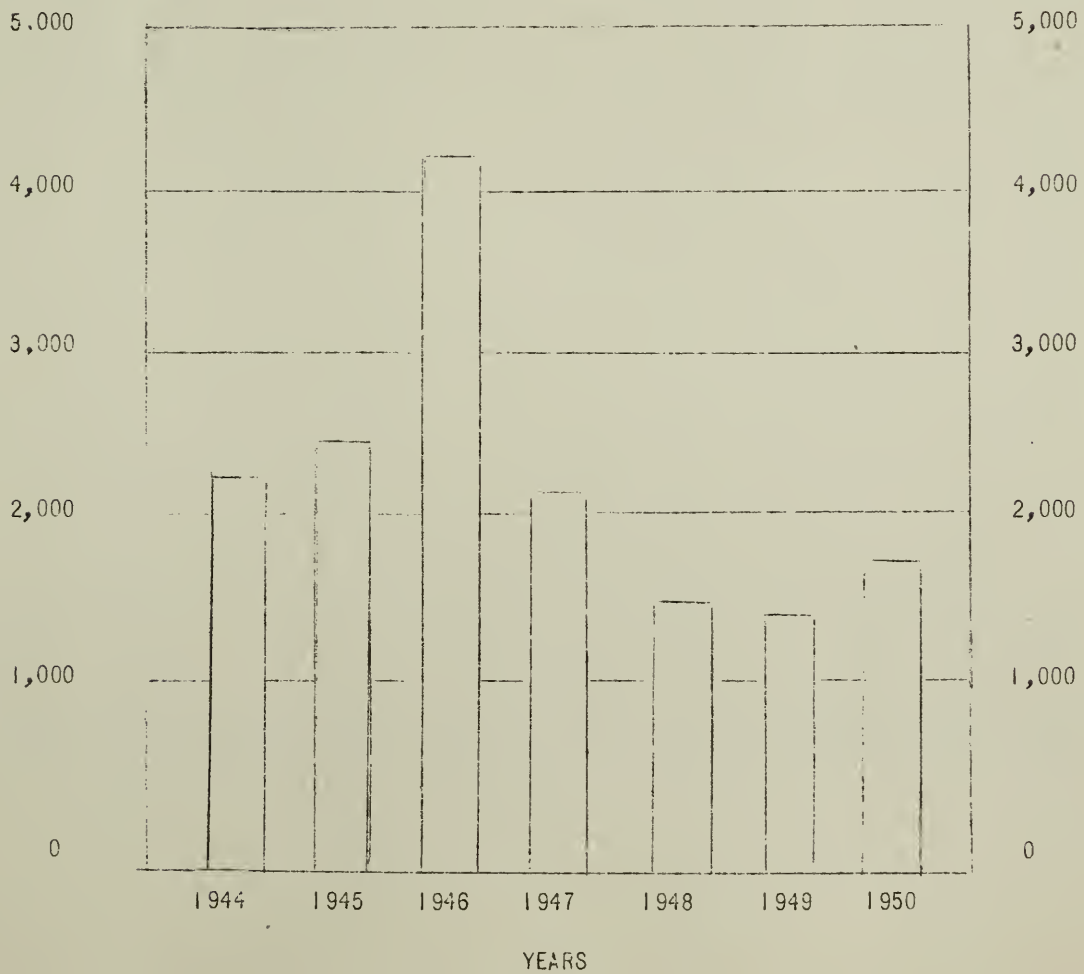

CUBIC YARDS
(000)

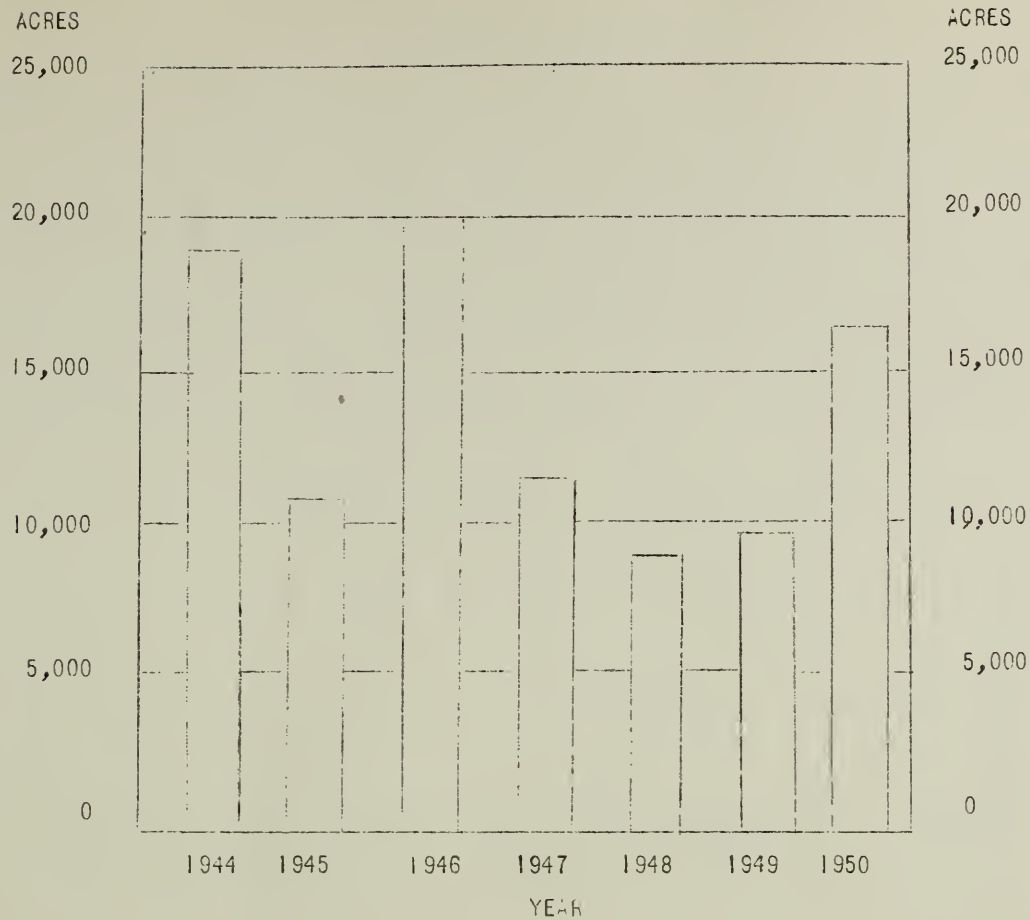

FARM IRRIGATION DITCHES

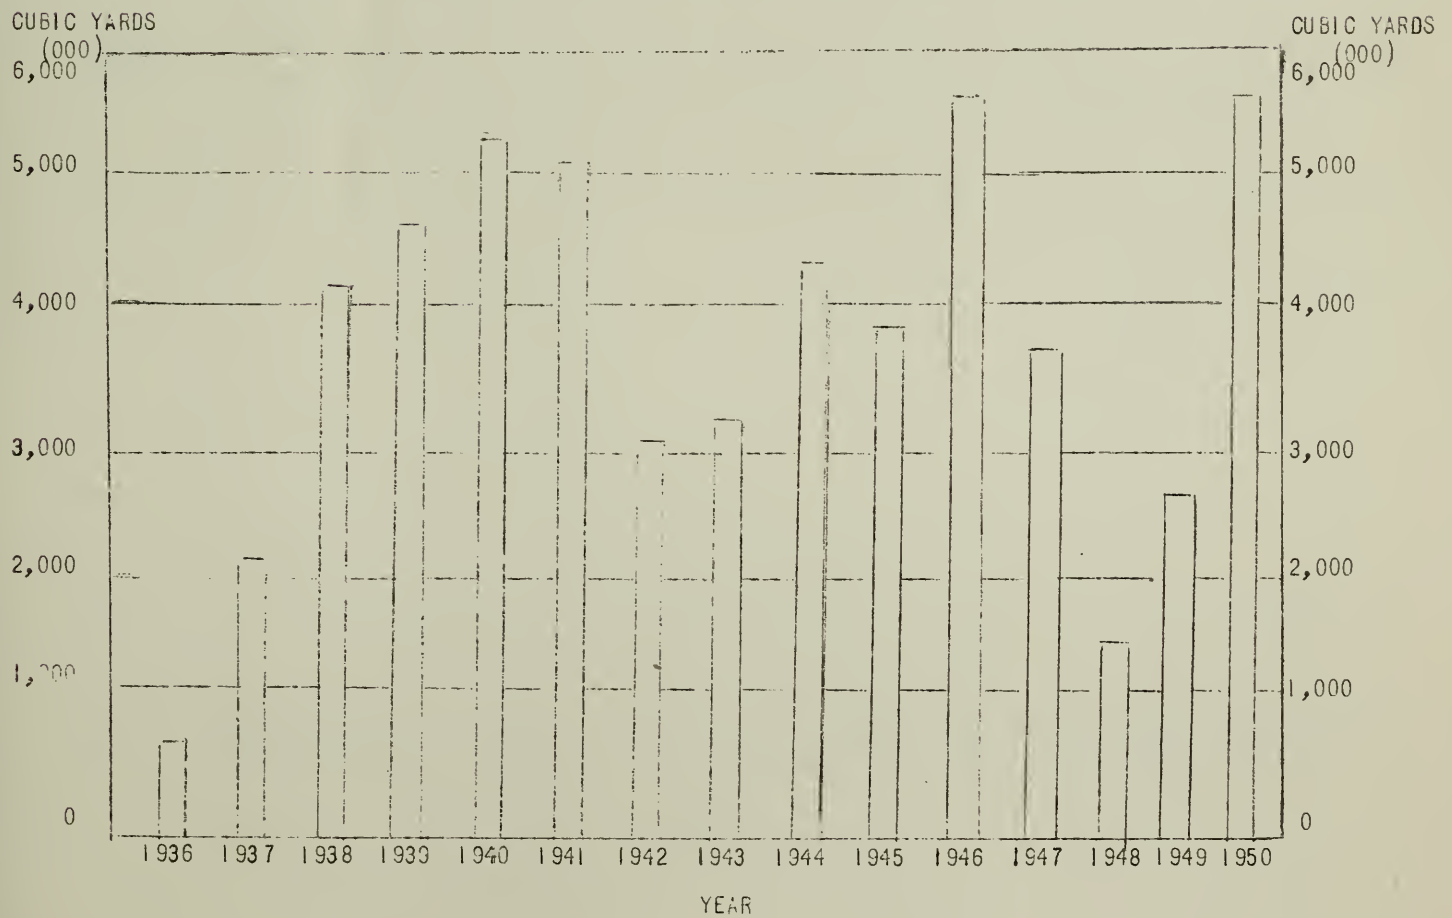

CUBIC YARDS
(000)

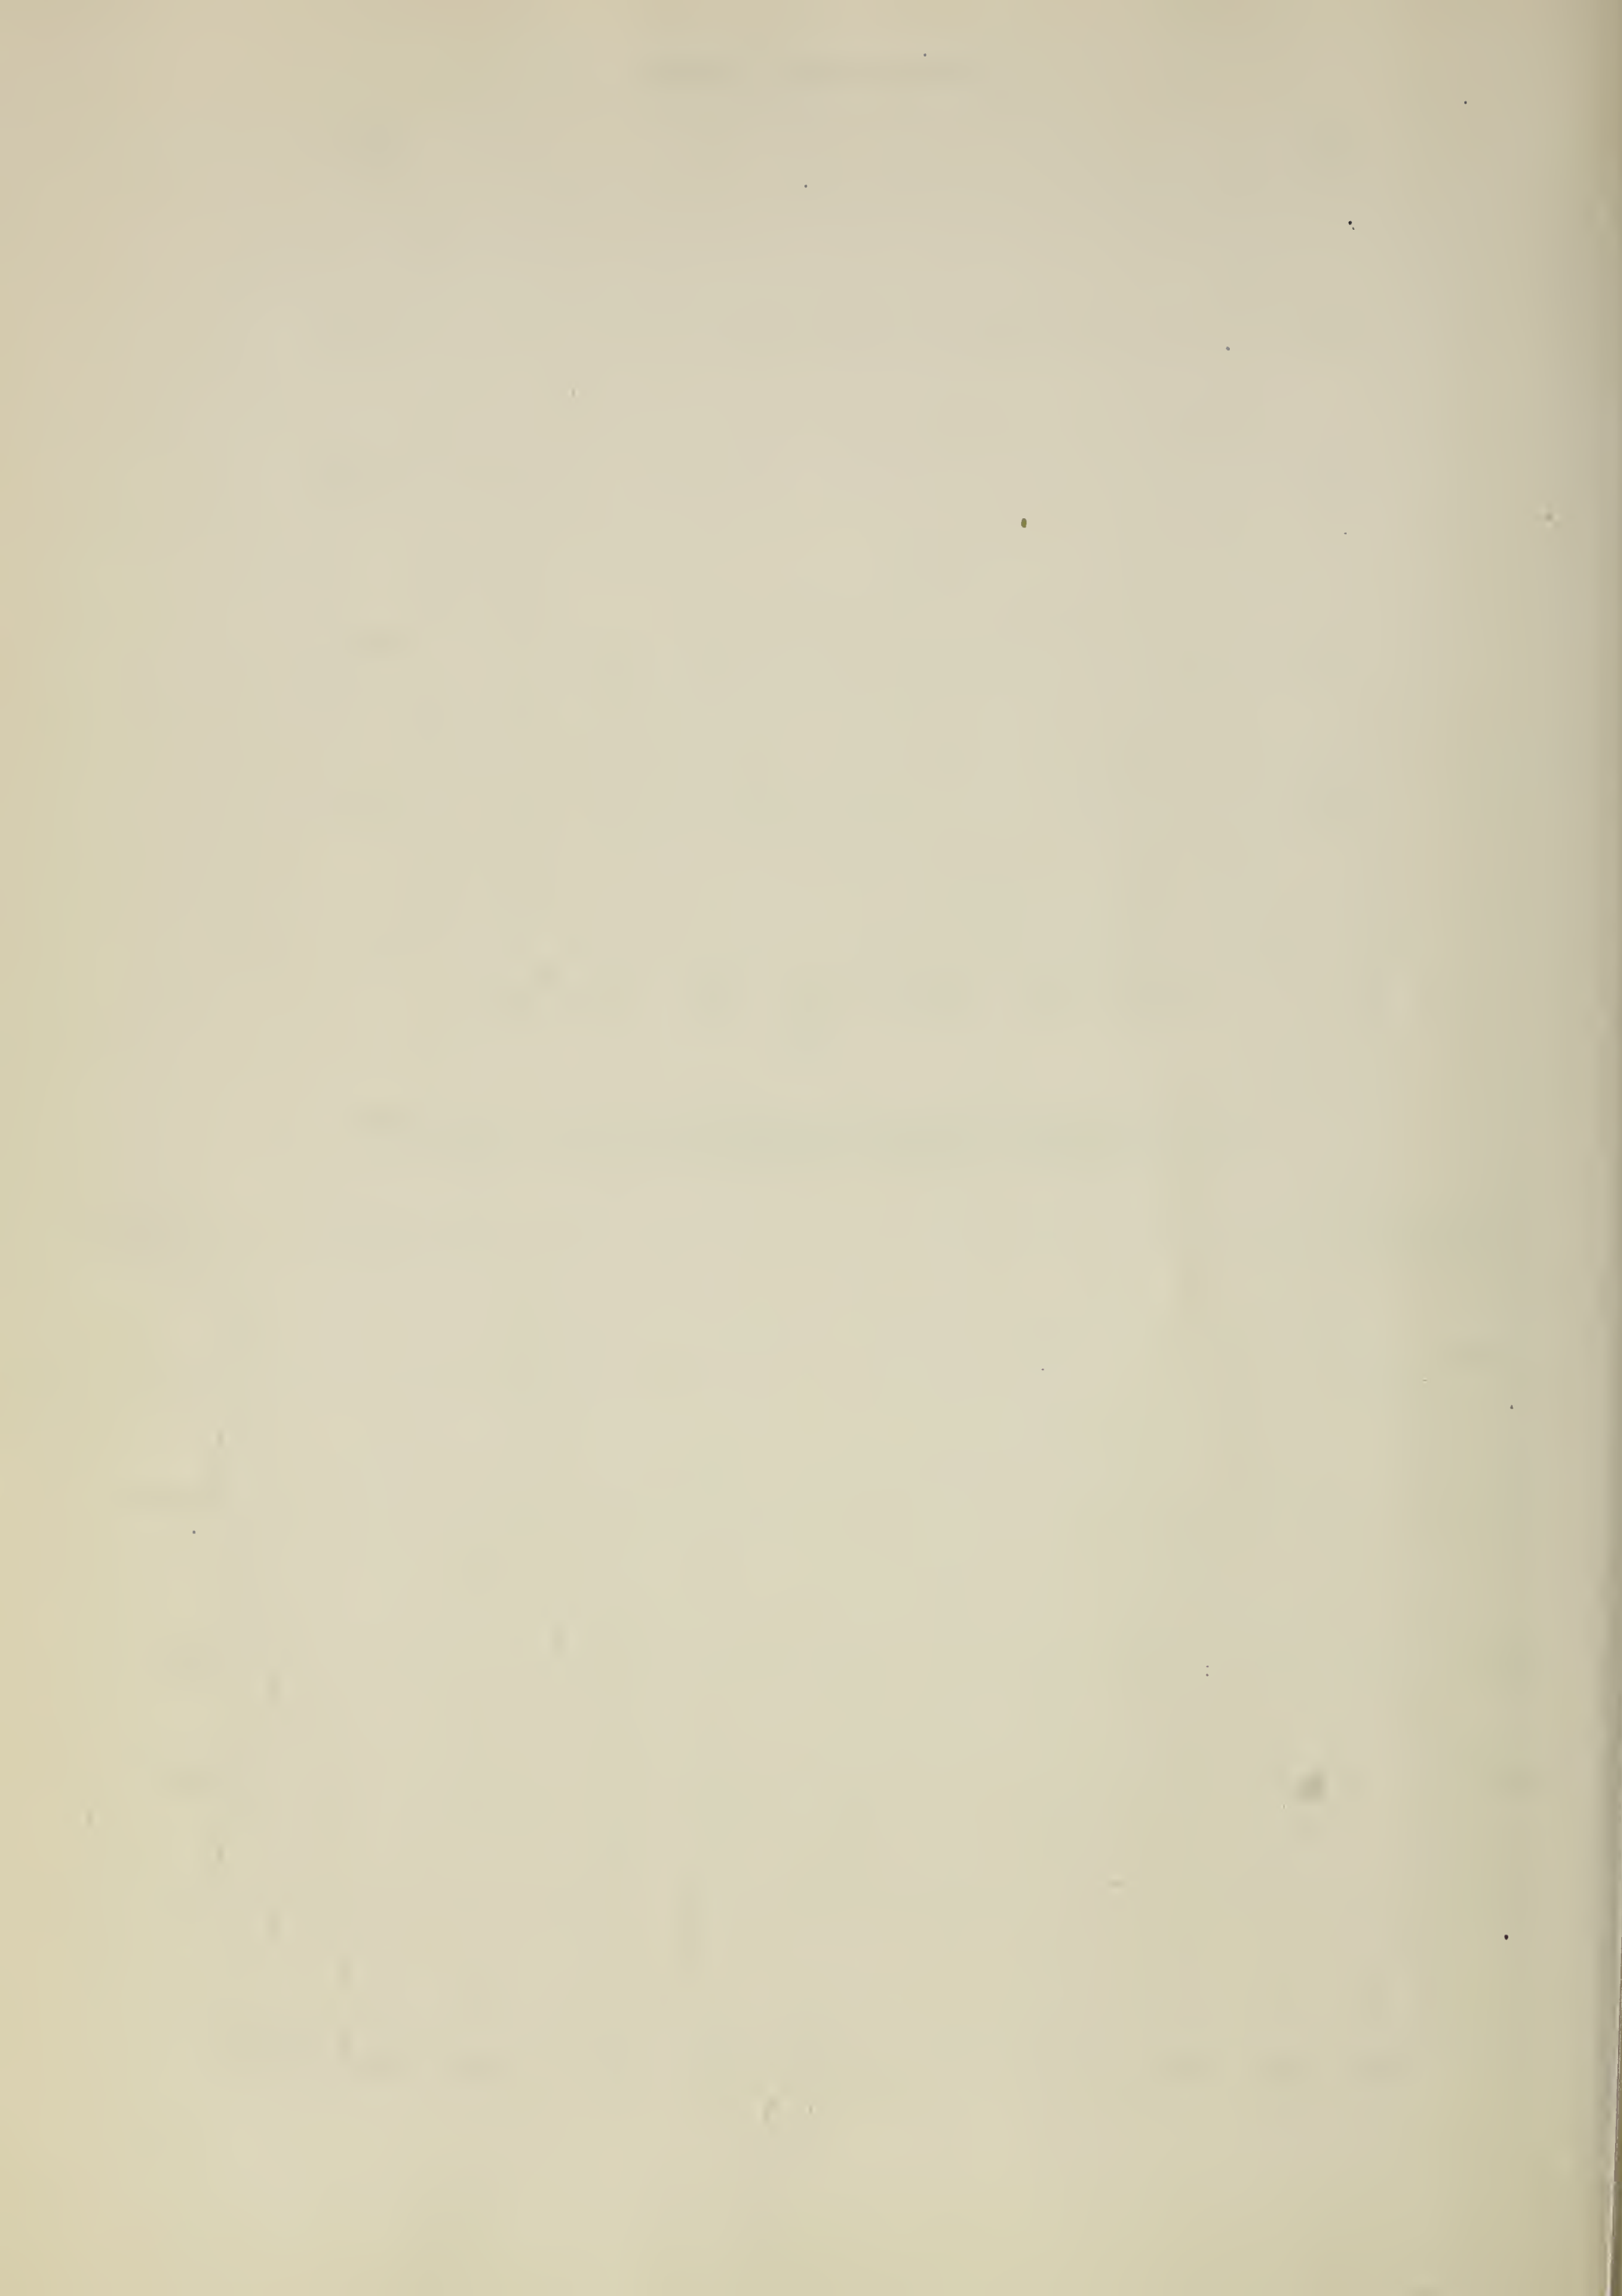

CUBIC YARDS
(000)

CUBIC YARDS OF EARTH MOVED IN THE CONSTRUCTION OF ALL EARTHEN DAMS
(INCLUDES STOCKWATER, SPREADER, AND IRRIGATION DAMS)

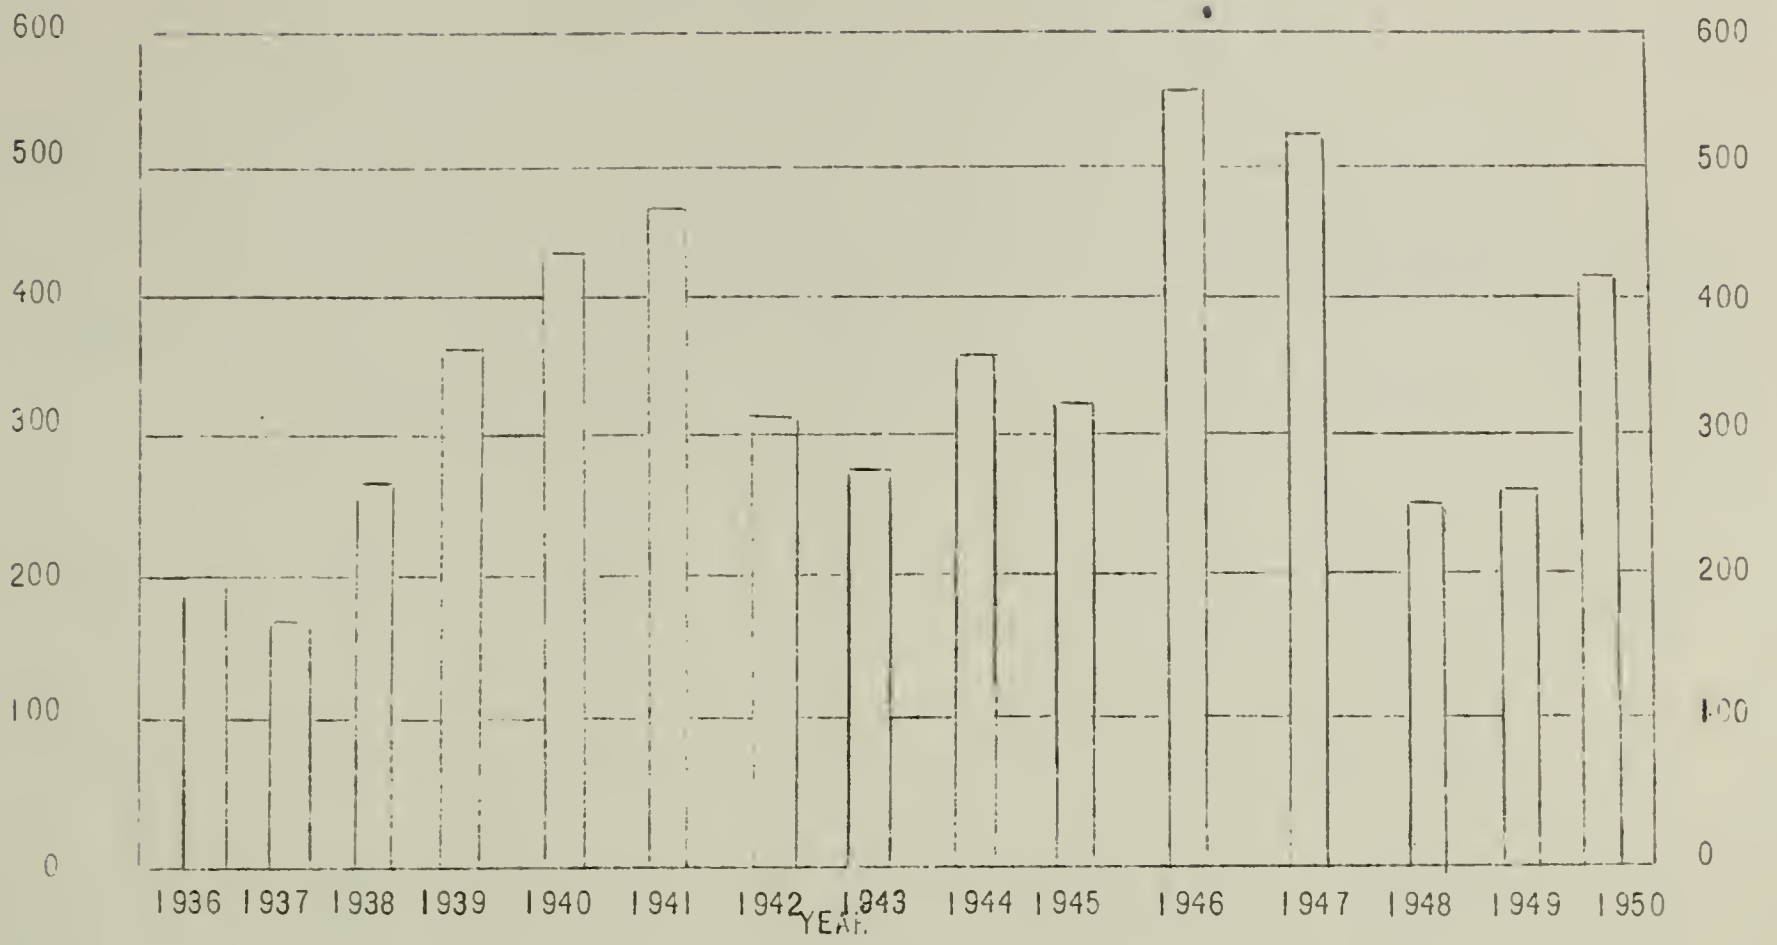

ALL WELLS FOR STOCKWATER

NO. OF WELLS

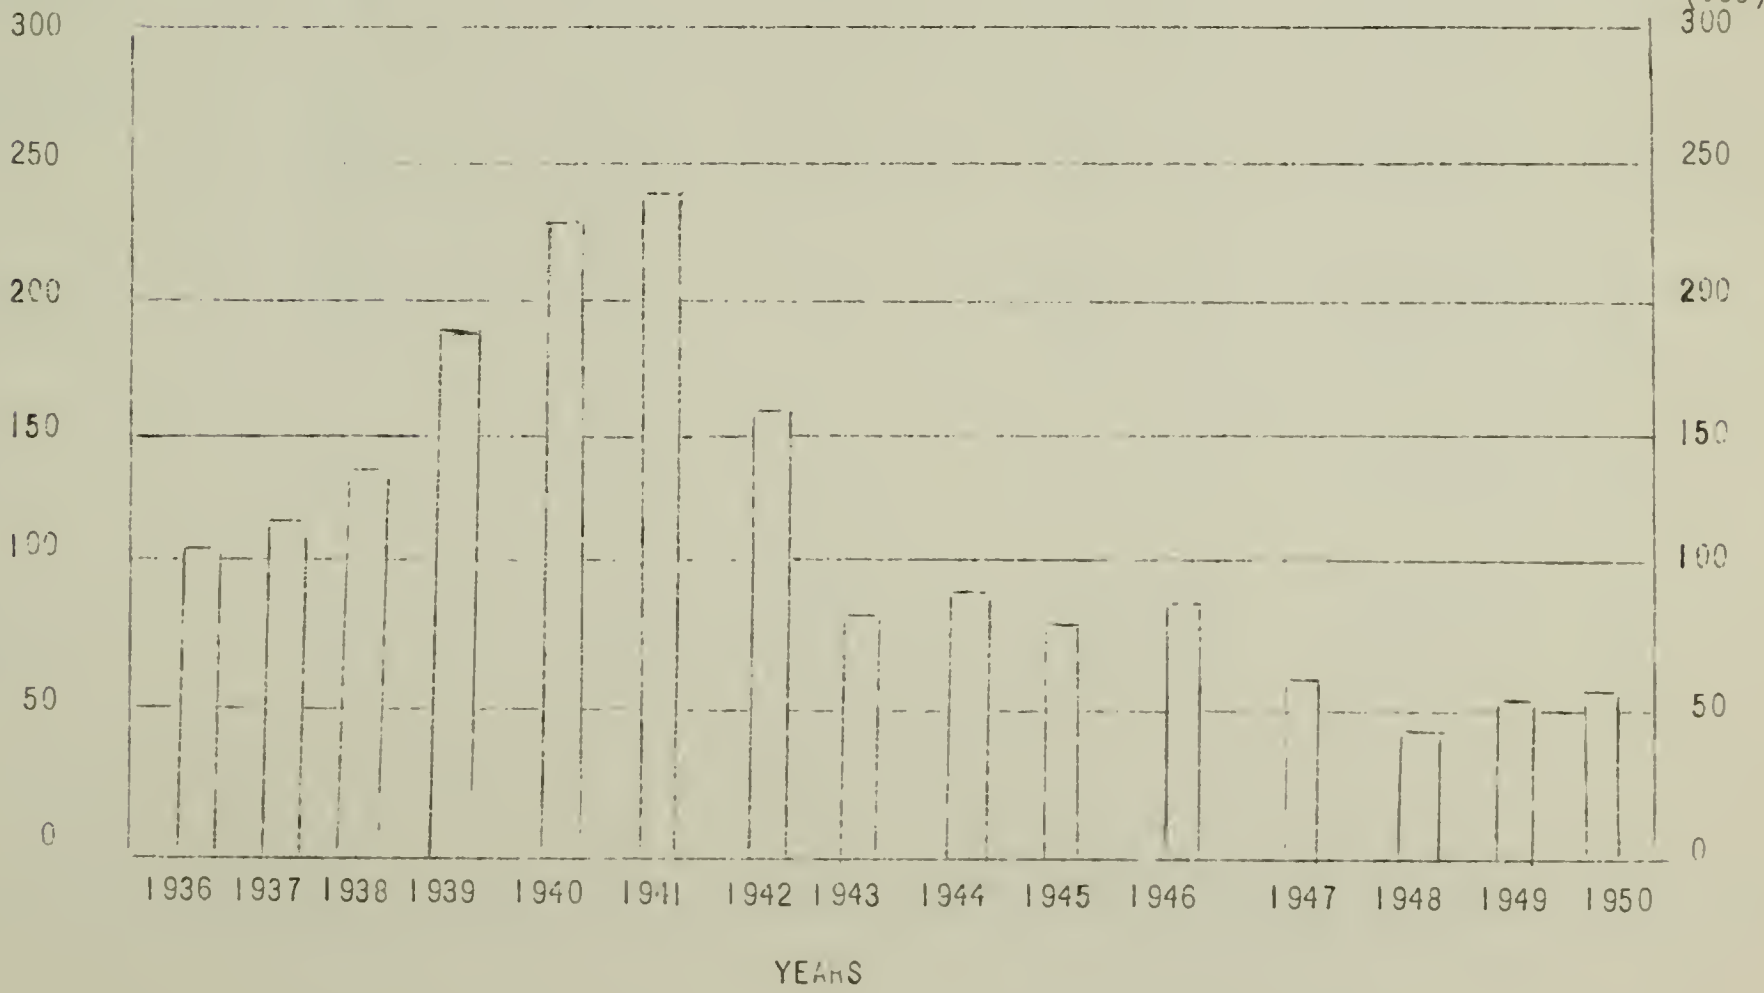

NO. OF WELLS

PASTURE SEEDINGS

ACRES
(000)

ACRES
(000)

PART 5

1950

FEDERAL CROP

INSURANCE

PROGRAM

FEDERAL CROP INSURANCE PROGRAMS

The Federal Crop Insurance Corporation had seven insurance programs operating in five counties in Wyoming for 1950.

According to the Federal Crop Insurance Act as amended in 1947, expansion of the program into additional counties and development of new commodity programs are limited to a definite schedule. The management of the Federal Crop Insurance Corporation has chosen to recommend to the Congressional Appropriations Committees, acting on the 1951-1952 budget, that expansion of the program be stopped until after the present defense emergency.

Selection of counties for introduction of the crop insurance program was made on the basis of such factors as importance of the commodity to the county, the interest manifested by local producers and whether local program administrators believed the required number of applications might be obtained to meet minimum requirements.

Washakie County was selected for multiple crop insurance in the summer of 1950 for the 1951 crop year. A sales campaign was conducted in the county in the fall and the county qualified for the insurance program by November 30.

Following are shown the programs offered in various counties and the number of policies in force for 1950:

<u>Program</u>	<u>County</u>	<u>1950 Policies in Force</u>
Beans	Big Horn	189
	Fremont	376
	Goshen	186
Wheat	Goshen	80
	Laramie	139
	Platte	111
Multiple	Platte	121

The state level of administration of the Federal Crop Insurance program is divided between the State PMA Committee, Mr. Lester Crompton, Chairman, and the State Director for the Federal Crop Insurance Corporation, Mr. Burrell J. Monroe. The headquarters for PMA is 345 East 2nd Street, Casper, Wyoming, and the Federal Crop Insurance Corporation has headquarters at 948 Broadway, Denver, Colorado.

The responsibility of the PMA is to organize and direct educational and sales activities, service policies, obtain acreage reports, accept reports of loss and damage, and maintain records. The FCIC Director is in direct charge of loss adjustment and actuarial work in the State.

County administration is in the hands of County PMA Committeemen, making the County PMA Office the local office of the crop insurance program for the county.

Complete information on the provisions of the Federal Crop Insurance policy may be obtained at the State and County PMA Offices or at the State FCIC Director's office.

The objective of the Federal Crop Insurance program, in the Federal Crop Insurance Act, is to promote the national welfare by improving the economic stability of agriculture through a sound system of crop insurance.

Following the intent of the Act, the crop insurance program is designed to protect the producers' investment in his crop against unavoidable loss from essentially all production hazards, such as drought, flood, hail, wind, frost, fire, wildlife, winterkill, insects and disease.

Protection starts at the time of planting. According to minimum participation requirements imposed by the Act, the crop insurance program cannot be operative in any county unless applications are obtained on one-third of the eligible farms in the county, or 200, whichever is the lesser. This assures a certain degree of administrative efficiency and provides a fair experience base.
